AUTOMATION

RELAY

Relays allow you to control and automate electric locks, gates, boilers, and other appliances using the Ajax apps. Use scenarios to set up automation workflows on schedule or in response to detector alarms and changes of the system modes.

Pulse 0.5-255 seconds

Power supply 7-24 V DC

Dry contact

[Lee mas](#)

SKU: N/A

Price: 42,00€

SOCKET

Socket is a radio-controlled smart plug developed by Ajax Systems. The device combines the best of two worlds — automation and security. Connecting to an Ajax security system via the encrypted Jeweller radio protocol, the device supports communication at a distance of up to 1,000 m, with no need for Wi-Fi.

Socket consumes less than 1 W in the standby mode

Operates in bistable or pulse modes

Protects devices against overcurrent and voltage surges
